

Fourth Grade Summer Math Project- **DUE 09/03/2019**

On index cards, create flashcards for the Multiplication Facts. Please write the facts starting with 0 and stopping at 12. Bring your flash cards in a ziplock bag (labeled with your child's name) on the first day of school. We will be using these in class as well for fact fluency.

Students may also use Imagine Math and Firstinmath for additional practice via their student portal (www.philasd.org).

Name of Student: _____

4TH Grade Reading Response Assignment:

Read a Chapter book on your Independent Reading Level and choose any 3 activities to complete.

Due September 3, 2019

Book Title:

Author:

Illustrate the Setting	Draw a picture of the main character and surround your drawing with words that describe the character.	Make a poster advertising the book. Include the title, author, and an exciting picture!
Make a word search with important words, names, and places from the story. Solve it!	Change the ending of the Story!!!!	Make a diorama of your favorite scene from the Story!
Write a letter to the author and include at least three questions you have about the story.	Make a Venn diagram to compare this book to another book that you have read. How was it similar? How was it different?	Write a poem or a song about a character or event in the book.
