

Bridesburg Families,

I hope this letter finds you and your family well!! My family and I are hanging in there and trying to navigate this uncertain time. Our children look to us for guidance and reassurance. It is important to remain calm and remind them that the adults in their lives are here to keep them safe. It is also important to limit their exposure to the media and talk about fears in an age appropriate manner. I have provided a link to a parent guide when discussing Covid-19 with your children.

[Talking to Children about Covid-19: Parent Resource](#)

As the School District of Philadelphia begins online learning you may have many questions and concerns. We are in this together and I am here to help. I will have posted office hours Monday-Friday 9am-1pm for student check-ins, parent contact, and 504 planning. I have also created a Google classroom for students and I to communicate with each other. I can be reached via email, Google Voice or Google classroom. I miss all my students and hope this time apart comes to an end soon.

Stay Safe,

Jessica Moss, School Counselor
